Hello! My name is Janniyah. I'm from 2BSIT-2. I'm 19 years old. I barely have experience in coding and I'm still learning how to love coding since I still find coding very hard.

#### **My Interests:**

- Drawing
- Music
- Reading

#### **Social links:**

The webpage I created isn't that flashy, it might even be too underwhelming but I did spend some time to actually learn certain stuffs like how to do the buttons. For some reason I had a hard time with the whole external css thing. I followed every step in the video but I couldn't get the style to show up. I messed something up with the whole uhh location of the file thing. I fixed it by searching in chat gpt what I did wrong and tried to follow that instead. I just transferred the style into the same folder and it worked. I think I was just a bit stupid lol
